

# COMMITTEE BOOKLET

**Economix: Global Economic Challenges** is an international series of economic events held under Kanopi FEB UI.

Our event aims to be the medium for participants of diverse backgrounds and disciplines to share, discuss, and find potential solution to current global economic issues.

Moreover, Economix embraces these various world cultures and hosts additional casual events to facilitate an enriched cultural exchange

# EXECUTIVE REMARKS

Dear prospective members of the 21st Economix,

With the warmest pleasure and highest enthusiasm, We invite you to join us at the two decades of our events. **The 21st Economix Global Economic Challenges.**

Throughout years of Economix's journey, the brightest minds of FEB UI students had contributed in creating the biggest international Economics event, which provide students from various countries and diverse backgrounds a medium to explore solutions for the relevant global economic issues. This year, we welcome you to take part in our mission of solving this year's grand theme. **The Rise of Deglobalization: Navigating a Fractured Future.**

Economix is not just an ordinary experience. It is an exhilarating one, where you would engage with other great minds and work together as one big family. This way of thinking eventually had to lead our current and former members to pursue great opportunities and become the reformers of the society. Some have become prominent economists and leaders in various sectors, while the younger ones are also shaping their path, such as involving themselves in other leading roles all over the campus. Moreover, our strong relationship between generations will help you throughout your college career and even further.

**Will you continue our legacy?**
